KAVACA Ceramic IR

is the ultimate Automotive Window Film. Manufactured with state-of-the-art technology, Ceramic Pro has infused a proprietary formulation of nano-ceramic technology with an IR layer to deliver excellent Heat Rejection, Glare Control and UV protection that is metal-free, supporting signal clarity for all types of electronic devices. KAVACA IR blocks up to 99%+ of cancer-causing UVA and UVB rays and filters 96% of infrared heat.

Proprietary Nano-ceramic Technology!

The nano-ceramic and nano-carbon technologies in KAVACA Ceramic IR Window Tint Film is the first in its class. The combination of these technologies makes for window film with qualities we could have only dreamt about just a few years ago. The advancements in nano-technology spearheaded by our experience in ceramic coatings have made the creation of this IR film possible. For the first time ever you will be able to enjoy all the benefits of the most advanced film technologies with none of the drawbacks of traditional window tints.
