Full Coverage Glass Protection

Standard Cars.....	\$599
European Cars.....	\$699
Luxury & Exotic Cars.....	\$799
All Tesla, except "S".....	\$899

Save your expensive windshield from common road debris!

- Optically clear, molded on windshield protection by Clearplex™
- Protects your interior from 99.9% of harmful UV rays.

Clearplex Invisible Windshield Protection Film helps protect glass from rock chips, pitting, and bull's-eyes...keeping glass in its original, pristine condition. It allows rain and snow to run-off faster giving your superior visibility.

Clearplex Film is optically clear so drivers don't even notice it has been applied. The film application is a specialized and time consuming process involving a thermal molding process. The finished product is guaranteed not to peel, bubble, crack, or discolor under warranty.

Clearplex Invisible Protection Film can also be applied to sunroof glass, side and rear windows for added protection against hail as well as smash and grab incidents.

Note: Clearplex Clear HD is an advanced polymer treatment that is an essential part of the maintenance program for Clearplex Film. It will maintain the scratch resistance and water repellency of Clearplex. It also seals your film against bird droppings, bugs, oil, tar, grease, dirt and grime.

* Complex, compound curve windshields are extra. Ask for your custom quote!

We also rent Mercedes Benz sedans @ \$50 per day.
